## Micro Connector

- Conventionally connectors on a PC board are gathered at one place and taken out to the outside. However due to high-density mounting and reduction in size of the PCB recently it becomes difficult to gather signal lines at one place when designing the PCB layout.
- By using this micro connector, they can be separately taken out to the outside.
- As this connector is super-small type, it can be used when space is limited.
- The housing for 2.54 mm pitch is also available.

## Combination

Male side (electric wire fitting side)
Female side (PC board side) (This is adaptive for other types.)

| Part No. | Printed board fitting hole diameter | Height above the printed board part surface: A mm | Height above the housing + female pin part surface: B mm |

## Male pin

## OM series (100pcs/pack)

- This product and the housing (OH series) can be used as a pair.
- This product can be used alone (without housing).
- Please press-fit by using OM series press-fitting tool (OMXT-1).

| Part No. | A | L | B | Adaptive female pin |
| :---: | :---: | :---: | :---: | :---: |
| OM-1 | 3.7 | 8.2 | 0.55 | PD, PM series |
| OM-2 | 3.0 | 7.5 | 0.48 | PD-7 |
| OM-3 | 3.6 | 8.1 | 0.50 | PC-10 |

- Material: Brass
- Finish: Gold plating over nickel base
- Electric capacity: 1A

- Mountable electric wire diameter: Thinner than

OM-1 OM-2 AWG26

- Mounting housing: OH series

## Housing

## OH series (100pcs/pack)

- This housing is used for fixing $\mathrm{OM}-1, \mathrm{OM}-2$ and $\mathrm{OM}-3$.
- The tool for press-fitting to the housing is OMXT-2 and OMXT-3.

| Material | PBT resin (UL94V-0) |
| :---: | :---: |
| Color | Black |
| Temperature range | -40 to $+125^{\circ} \mathrm{C}$ |
| Number of pins | Max. 20P |
| 1st display | White marking |

## - How to order

$\mathrm{OH}-3$

-Please fill in the desired number of poles. (Maximum number: 20P)
