

One-touch spacer

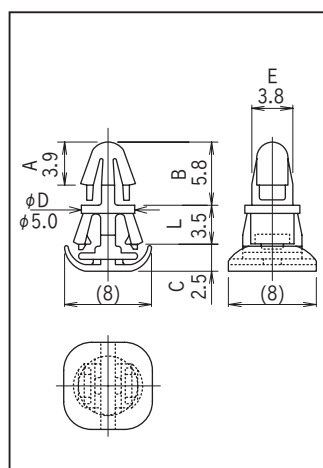

YPS series (100pcs/pack)

- This spacer can be fit just by insertion. (Same usage as YP series)
- The amount of protrusion to the back side of chassis is lower than YP series (Space-saving type)
- This is used for fitting a PC board to a chassis and for mounting PC boards by two-tiered installation.
- In case of the dimension is fit, the material at the chassis side can be metal, resin and so on.
- YPS-3.5S is short height type.

- Material: Nylon 66 (UL94V-0)
- Color: WHITE
- Operating temperature range: - 20 to + 85°C

YPS- □

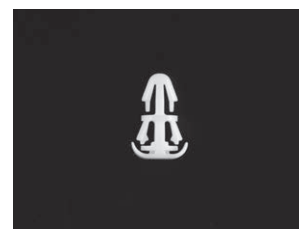

YPS-3.5S

*1: YPS-5, YPS-6 have different intermediate shapes.
